

HIGH OVER COOLUM

COASTAL SPLENDOUR
EMBRACING COOLUM

Perched high above Coolool Beach on Queensland's Sunshine Coast sits an outstanding trophy home carved into the cliff face. A breath-taking view sweeping across the deep blue of the Pacific Ocean.

Challenged with the task of renovating this property to the highest standards, Christopher Design Group embarked on a mission to ensure its excellence. The house's location and elevation expose it to various elements such

as sea salt, heavy rainfall, and strong winds. To meet the demands of these conditions, the Series 400 CentreGLAZE™ 102mm Single Glazed Framing was chosen for its robustness and longevity.

Given the ambition of the build, design requirements were challenging.

The Series 400 offers a diverse array of options, enabling installation in a wide range of building materials. As a result, the residence now boasts unobstructed views of the surrounding environment, encompassing the hinterland mountains and the sandy shores of Coolum Beach.

Absorbing the surrounding nature of the house was a priority for this household. The Series 618 Magnum™ Sliding Door is utilised all over the house, however the standout location is between the living area and the pool. In this particular spot, there is a 4-Panel Four Track Sliding Door that effortlessly links the living room to Coolum itself.

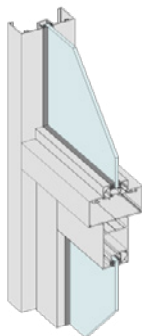

The result of this renovation is a multi-level breathtaking home that captures everything Coolum Beach has to offer.

Other Featured Products: Series 618 MAGNUM™ Sliding Door, Series 542 Residential Stacking Sliding Door.
