

SPICERS SANGOMA RETREAT

WHERE THE MOUNTAINS
MEET THE SKY

Everything about this world-class holiday retreat on the eastern slopes of the Blue Mountains says bliss. With colours that perfectly mirror the honey sunsets and grey-green palette of the surrounding bush, it's the perfect getaway for people in need of a recharge.

The building's pavilions sit before a majestic view that the owners were determined to capture in all its glory. Huge expanses of uninterrupted glass were crucial to their vision.

Also critical was the use of BAL-rated products to combat the high bushfire-risk environment, along with energy efficient windows and doors to ensure interior comfort despite the dramatic temperature extremes of summer and winter.

The team at Custom Aluminium Windows was consulted to ensure the perfect windows and doors were chose for the project.

AWS | PROJECT FEATURE

In close consultation with the owners, AWS Series 618 MAGNUM sliding doors were chosen. With a massive span of 12 metres and a height of three metres, they allow a seamless transition onto the stunning outdoor deck – not to mention the sweeping views. In the height of summer, they can also be thrown wide to make the most of the cool breezes and reduce the need for costly air-conditioning.

This project even included a clever corner sliding door, maximising connection with the surrounding bushland.

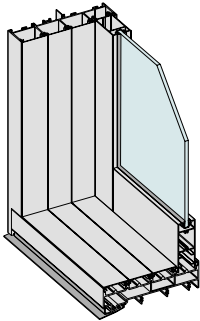

Occasional gale-force winds and heavy rains meant high weather performance double-glazing was essential.

The commercial-grade Series 462 Architectural Sliding Windows incorporate bold frames and thick, strong sashes designed to carry large spans of heavy-duty glass.

VANTAGE® MAGNUM™ SLIDING DOOR SERIES 618

With its clean lines, strength and bold styling, the elegant Vantage® MAGNUM™ stacking sliding door never fails to make a statement.

× Get up to four panels in each direction, with the potential to span a massive 12-metres. Perfect for opening onto outdoor dining areas!

- × A range of standard or high-performance sills. Can be recessed into a slab for a beautiful, flush threshold.
- × Ideal for areas with heavy winds or rain.
- × Can be configured as a 90o corner pull-away door or with a cavity slide option so your doors disappear into your wall.

Maximum Panel Height: 3000mm

Maximum Panel Width: 2000mm

Maximum Glass Thickness: ≤ 20mm

Custom Aluminium Windows is a family owned business which was established in 1984. We fabricate attractive and functional aluminium windows and doors which are always of excellent quality. Custom Aluminium Windows has been operating for over 20 years and you can be sure that we pride ourselves on the excellent quality and service that we consistently give to our customers.
