

NEWPORT GEM

AT THE EDGE OF SERENITY

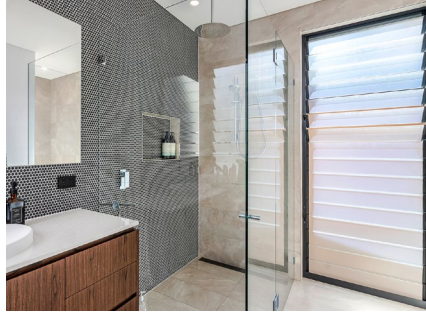

Unassuming the front, this home appears to be a small bungalow. However, once inside, it reveals a stunning three-story design with sweeping views of Pittwater, leading down to a beautiful marina of waterfront homes and yachts.

Windows and doors have been magnified at the rear of the home. On each level there are large sliding doors inclusive of Centor Retractable Screens, to create a seamless flow between indoor and outdoor living areas. Highlights and louvres at ceiling height in the kitchen and dining areas enhance natural light and cross ventilation, promising comfort all year round.

AWS | PROJECT FEATURE

Series 618 Magnum™ Sliding Doors are featured in every bedroom and living space allowing direct access onto the balcony, the width of the home giving every member of the family their very own private retreat.

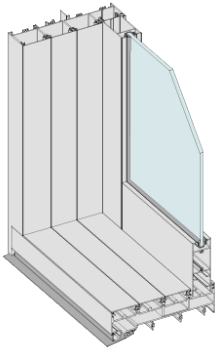

The Elevate™ Aluminium Systems, Series 424 CentreGLAZE™ Framing was chosen for the louvres, highlights and fixed windows. This framing system has a 28mm deep glazing pocket, which allows for the incorporation of LightBridge™ low-e IGUs – essential to meeting the specific energy needs of the location. Windows and doors are framed in monument, creating a subtle contrast to the soft neutral palette.
